Priends endeavored to persuade Mr. Wilson to allow his name to be used in the event of failure to reelect J. H. Nations of El Paso.

James Primm of El Paso is admittedly a strong candidate, but some opposition to him appears founded on grounds of his connection with meat packing interests.

It is reported that if Wilson becomes a candidate. Primm may drop out of the race with the understanding that the headquarters of the association shall be in El Paso, and with that understanding. El Paso will go after the 1917 convention in a determined manner, members of the delegation declare.

Buy of Open Range Passes.

The day of the open range is passing, never to return, and the new order of things, entailing the ownership of land by the big stock grower and marking the advent of the small stock farmer, will mean better conditions and higger profits in the livestock industry. These are the views of Gov. W. C. McDonald of New Mexico, a pioneer cowman, and one of the most successful cattle growers in the state, in his address today before the thousand or more delegates to the convention.

Mass How to Inevitable, whether it may accord with our selfish interests or not. The time is almost here when the cowman must own his land in order to prosper. I do not believe that this means ruin and destruction to the cattle ladustry: I believe that it means progress and better conditions with increased profits on investments and safe returns for the capital and industry merged in the production of livestock."

Nations Bellvers Address.

President J. H. Nations delivered his annual address at this morning's session, an outline of his experience in the cattle business for the hast 40 years and an appeal for classification of the public tange by the government.

Hearing By Congress Arranged.

It developed today that the market committee of the National Livestock association has arranged for a hearing on the packing industry before a congressional committee with a view to finding out why the stock growers are not getting a larger portion of the profits of the industry. A. C. Deflugues, secretary of the market committee, announced that the hearing would be held in Washington, March 15, and that arrangements had been made to press the stockmen's claims even further, if necessary, Walter Fisher, formerly secretary of the interior, has been engaged as counsel by the committee and will present its claims to the committee.
